CARLISLE PENRITH NEWCASTLE BISHOP AUCKLAND

## Lloyd Ltd joins BOMAG (GB)'s dealer network for light compaction equipment

Lloyd Ltd is delighted to announce that it has joined BOMAG (GB)'s network as its dealer for light compaction equipment across Cumbria, Northumberland, Durham and Tyne & Wear with immediate effect.

From our Bishop Auckland, Carlisle, Newcastle and Penrith branches, we are now offering BOMAG's range of light compaction equipment, which includes single direction and reversible compaction plates, tampers, trench compactors, single and twin drum rollers and the market-leading range of compact tandem rollers with the option of ECONOMIZER real-time compaction display.

Lloyd Ltd's Managing Director, Barry Lloyd, commented: "We are always looking for new partners whose product lines complement ours and BOMAG's clearly does. We have extended our operations in the construction sector over the past couple of years so this is the perfect time to add another type of product to our growing offering. BOMAG's range of light compaction equipment is universally well-regarded and offers a robust, quality solution which will benefit many of our customers. We are proud to join BOMAG's dealer network and look forward to working with them as we extend their representation across the North of England."

BOMAG (GB)'s MD Alan Batty added: "Lloyd Ltd has a long history and an excellent reputation for customer service in both the construction and agricultural markets. I look forward to developing the relationship for the benefit of the many existing BOMAG customers in the North."

Lloyd Ltd already has a number of BOMAG machines available and has staff undergoing product training for both sales and aftersales to ensure that BOMAG customers old and new are supported through this new venture.

## BOMAG BW 120 AD-5 Light Articulated Steered Tandem Roller

### Flexible high-utilisation rollers with compaction control.

Fields of application: Earthwork and asphalt applications. New construction and repair work for medium and small scale construction projects, on parking lots, sidewalks, cycle paths, playing fields and sports grounds as well as rolling of joints in road construction.

### Key features as standard

- Hydrostatic travel and vibration drive
- Pressure sprinkler system with interval switch
- Suspended operator's platform
- 2 scrapers per drum, spring loaded and tiltable
- Multi function travel lever
- Multi-function display incl. operating hour meter
- Water level
- Electronic fuel gauge
- Emergency STOP
- Individual control, vibration
- Intelligent Vibration Control (IVC)
- Integrated stowage compartment
- Adjustable operator's seat
- Lashing eyes, galvanized
- Back-up alarm
- Single point lifting device
- V-belt protection
- Vandalism protection
- Lockable engine hood made of composite material
- Working lights front and rear
- 12V socket
- Seat contact switch

## BOMAG BW 80 AD-5 Light Articulated Steered Tandem Roller

### Staying power, reliability and durability.

Fields of application: Earthwork and asphalt applications. New construction and repair work for medium and small scale construction projects, on parking lots, sidewalks, cycle paths, playing fields and sports grounds as well as rolling of joints in road construction.

### Key features as standard

- Hydrostatic travel and vibration drive
- Pressure sprinkler system with interval switch
- Travel drive in series
- Two scrapers per drum, spring loaded and tiltable
- Multi function travel lever
- Multi function display incl. operating hour meter
- Water level
- Emergency Stop
- Individual control, vibration
- Intelligent Vibration Control (IVC)
- Integrated stowage compartment
- Adjustable operator's seat
- Lashing eyes, galvanized
- Back-up alarm
- Single point lifting device
- V-belt protection
- Vandalism protection
- Lockable engine hood made of composite material
- Working lights front and rear
- 12V socket
- Seat contact switch
- Plastic water tank

## BOMAG BW 71 E Single Drum Vibratory Rollers

### Our experience is the difference.

Fields of application: Earthwork and asphalt applications. New construction and repairs of sidewalks, hard shoulders, cycle paths, yards and drive ways, children's playgrounds, tennis and sports grounds as well as agricultural and forestry road construction.

### Key features as standard

- Hydrostatic drive
- Sprinkler system
- Electric starter
- Vibration dampened steering rod
- Height adjustable steering rod
- Vibration and throttle regulation on the steering rod
- Scrapers front and rear
- Protective engine covering
- Single point lifting device
- Safety control
- Back-up drive protection
- Support bars front and rear
- 3-2-1 warranty

## BOMAG BVP 10/36 Single Direction Vibratory Plate

### Power, performance and reliability.

Fields of application: Earthwork, asphalt and paving applications. Repair work on roads and agricultural roads, pipeline and trench construction, landscape gardening.

### Key features as standard

- Vibration insulated steering bow, foldable
- Detachable steering handle
- Highly wear resistant base plate
- Automatic shutdown at low oil level
- Recoil starter
- Single point lifting device
- Fully protected V-belt
- Carrying handles
- 3-2-1 warranty

## BOMAG BPH 80/65 S Reversible Vibratory Plate

### Superior performance: best technology.

Fields of application: Earthwork. Construction of roads, forestry roads and railtracks, backfills, trench and sewer line construction, landscape gardening, foundations.

### Key features as standard

- Hydrostatic drive
- Cable remote control
- Electric starter
- Engine protection hood
- Highly wear resistant base plate
- Automatic shutdown at low oil level
- Lockable engine cover and dash board
- Single point lifting device, foldable
- Wear strips
- Battery disconnect switch
- Easy Service Concept
  - Diagnostic module with fault code display
  - Hour meter
  - Foldable full protection hood
- 3-2-1 warranty

# BOMAG BMP 8500 Multi-purpose Compactor

## Multi-purpose means more value.

Fields of application: Earthwork. Trench and sewer line construction, backfills and foundation work – wherever high demands are placed on mobility, manoeuvrability and simple operation under severe soil conditions.

### Key features as standard

- ECOMODE
- Drum extensions (610/850mm)
- Hydrostatic articulated steering, maintenance free
- Combination remote control cable/radio
- Dual directed-vibration system
- Two travel speed ranges
- 2 amplitudes
- Intelligent Vibration Control (IVC)
- Electric starter
- Hydrost. service brake
- Hydro-mechanical parking brake
- BOMAG Operator Safety System
- 2 scrapers per drum
- Battery disconnect switch
- Automatic shutdown at low oil level
- Automatic engine shut down at a lateral tipping angle of > 45°
- Full prot. hoods made of impact resistant compound material
- Single point lifting device
- Lockable engine cover and dash board
- Easy Service Concept
- Diagnostic module with fault code display
- Hour meter
- foldable full protection hood
- 3-2-1 warranty
