

Kobelco SK210-H Hybrid Excavator

£69,500 exc VAT

Condition: Used

Branch: Dumfries

KEY FEATURES

- 22-ton tracked excavator
- 2018
- Hybrid model: Battery-operated slew, decreasing fuel consumption
- Hammer, breaker and rotation pipework
- Check valves
- 700mm shoes
- Finished in optional Silver Paintwork
- Equipped with an Exhaust Gas After-Treatment System and a Selective Catalytic Reduction System with a DEF/Urea, which decreases NOX by about 88%
- Independent swing electric system enables good operability for combined operation of swing and attachment
- While the machine is digging or travelling, an assist from the generator motor greatly reduces the engine load
- Auto Idle Stop eliminating wasteful idling, saving fuel and reducing CO2 emissions
- Will use HVO fuel
- Fuel consumption is reduced as the power of the generator motor has been increased to 25kW, equivalent to the power output of the engine of a 5-ton class excavator
