

PANTERRA TANKERS

A simple efficient approach to slurry handling.

The Panterra tanker is another quality member of the SlurryKat family. Pioneered to offer our less intensive clients a lower specification tanker range while still maintaining vital reputable build quality and reliability - a trait associated with all SlurryKat products.

The same high quality components found in the flag ship SlurryKat tanker range are also found in the Panterra range without the other high spec standard engineering features. This means you can own a prestige SlurryKat tanker at less cost, yet still enjoy high residuals, delivering exceptional smoothness and efficiency in the toughest operating conditions with Panterra.

The range comes standard in a highly durable red gloss finish.

Total control, highly durable, less cost.

Less Cost

FEATURES:

- ▶ Standard Finish Colour Red *Other Colours Optional
- ▶ Commercial Axle 10 Stud
- ▶ 9000L/11000L Vacuum Pump Depending on Model
- ▶ Full Led Road Lights
- ▶ 6mm High Tensile Steel Tank Construction
- ▶ All Seams Fully Welded Internal And Externally
- ▶ Tank Ends - Dished And Flanged
- ▶ 4 X Fill Points 1 C/W Quick Release Coupling
- ▶ 1 X Suction Hose Rack
- ▶ 1 X 15ft Suction Hose
- ▶ PTO Shaft
- ▶ Anti-Impllosion Rings
- ▶ Anti-Surge Baffle System
- ▶ Sprung Draw Bar
- ▶ "Super Syphon" Pump Protection System
- ▶ Level Sight Glasses - 1 Front, 1 Rear

Model	Pump Capacity litres	No. of Axles	Brake Size	Standard Wheel / Tyre Size	Tank Thickness	Total Width mm	Total Length mm	Total Height mm
7,250L (1,600G)	9,000L	1	420X180	28.1 R26	6mm HT Steel	2530	6610	3180
