

HE-VA Tip Roller XL

12.3m - 15.3m with Shattaboard

The new HE-VA Tip Roller XL will meet the demand for wider rolls, with the ability to cultivate and level, and has its UK debut on the OPICO stand at the Cereals 2017 event.

A new, strengthened double frame design allows shattaboards, harrow tines or cultivator tines to be fitted on 12.3m and 15.3m working width rolls across five contour following sections.

HE-VA have previously only offered three section rolls with shattaboards, up to a 10.2m width. However, originally launched at SIMA, this impressive new machine employs a similar 'TIP' folding system to the smaller machines, but the stronger, double frame allows this huge set of five rolls to become a multi-purpose machine cultivating and leveling in one pass.

Model	Working Width	Transport Width	Ring Type	No. of Rings	Weight Kg	Max Hp
1063086-62	12.3m	3m	620mm/10 Spoke	236	12600*	190-220
1063088-62	15.3m	3m	620mm/10 Spoke	292	13500*	190-240

*Weight without shattaboard.
