Construction Equipment

Doosan Hydraulic Breaker **HB series**

Powered by **Innovation**

Certain specification(s) are based on engineering calculations and are not actual measurements. Specification(s) are provided for comparison purposes only and are subject to change without notice. Specification(s) for your individual Doosan equipment will vary based on normal variations in design, manufacturing, operating conditions, and other factors. Pictures of Doosan units may show other than standard equipment.

DOOSAN

HB series

Doosan Hydraulic Breaker

Doosan proudly presents new HB-series hydraulic breakers in European market.

With high-performance and simplified design optimized for Doosan excavators, excellent quality covered by industry-leading 2 year warranty, and reasonable price,

HB-series exceed what customers expect from a hydraulic breaker.

Satisfaction guaranteed.

- ✓ High Performance
- ✓ Simple Structure
- ✓ Easy Maintenance
- ✓ Reasonable Price

Doosan Hydraulic Breaker HB series

5 REASONS TO USE DOOSAN BREAKERS

Performance

Doosan HB Breakers offer powerful performance and top notch productivity-whether you are demolishing concrete or breaking rocks.

Engineering Approved

HB series are optimized for Doosan excavators, fully certified by Doosan engineering.

One-Stop Service

Same as Doosan excavators, Doosan breakers will be covered by strong Doosan service network and Doosan product specialists, providing "One-stop service" experience.

Warranty

Avoid compatibility and warranty coverage arguments from using Non-approved breaker. Doosan offers standard Warranty up to 2 Years.

Price

Even with 2-year warranty, HB-series are offered at reasonable price, providing customer benefits in total cost of ownership.

FEATURES & BENEFITS

Through Bolt

Extended service life through adoption of advanced heat treatment process

Back-head

The energy of piston stroke is accumulated by charged nitrogen gas

Inward Valve System

Simple structure and less inner parts

Front Head

Supports breaker and assembles with bushing, which buffers shock from the tool

Urethane Dampper

Vibration dampening prevents Carrier damage and improves operator comfort

Cylinder

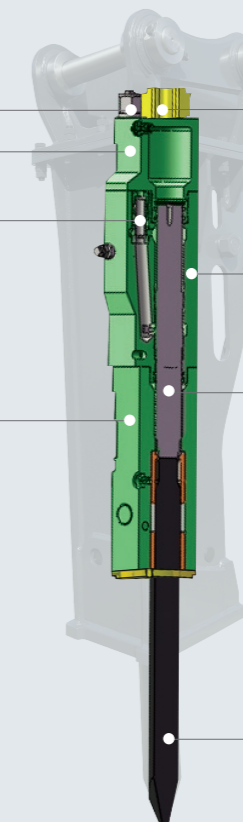

Unique heat treatment process ensures stable quality

Piston

Quality and durability was drastically enhanced as result of quality proven material in terms of anti-wear, heat resistance, anti-impact, pressure resistance strength etc

Chisel

Doosan genuine working tool ensures Doosan hyd. Breaker's performance and productivity

HB03 / HB04 / HB06 / HB08 / HB15

Doosan Hydraulic Breaker HB series

Item	Model	HB03	HB04	HB06	HB08	HB15
Total Weight	kg	100	150	300	390	900
Length	mm	1107	1210	1390	1491	2065
Width	mm	260	260	328	328	440
Height	mm	298	298	400	400	520

Weight of Tool	kg	8	9	18	26	57
Suitable Carrier	ton	1.2 - 3.0	2.5 - 4.5	4 - 7	6 - 9	10 - 15
Matching Doosan excavators		DX17Z DX19	DX27Z DX35Z	DX57W DX62R DX63	DX85R	DX140LC DX140LCR DX140W DX160LC DX160W DX165W

BRACKET TYPE

HOUSING (LOW NOISE)

Recommended for professional contractors working in urban zones, where noise level must be controlled or where local regulation may require silenced breakers

- Low noise (120 dB)
- Less vibration due to urethane damper inside

TOOL SELECTION

USE THE RIGHT TOOL FOR THE RIGHT JOB

Breaker Tool (Chisel) is a wear part and tool consumption is the main causative for wear part costs. It is important to select an appropriate tool according to the nature of work and the characteristics of the object to break. Genuine Doosan tools are designed to best fit Doosan breakers.
